ageLOC Tru Face Essence Duet

INCREDIBLY SMOOTH, CONTOURED AND TONED LOOKING SKIN

BENEFITS

- AgeLOC targets the sources of the visible signs of skin ageing to preserve the look of youth and reduce the appearance of ageing.
- Visibly reduces lines and wrinkles to achieve younger-looking skin.
- Specially formulated with Tru Face FirmPlex to deliver visibly firmer skin.
- Helps visibly lift and firm skin and improve its elasticity for a youthful, lifted, healthy look.
- Defines skin around the eyes, chin, mouth, and jawline for a beautifully contoured appearance.
- Helps to protect the skin from the negative effects of oxidative stress

USAGE

- For optimal results, before your day or night cream, apply morning and evening onto clean dry skin. Dispense 1-2 pumps into hands by pressing equally with your 2 fingers on the pump, mix gently and smooth over neck and décolleté.
- Contour the neck: hands at the base of the neck, fingers behind the neck, apply light pressure with the fingertips.
- Tone the décolleté: hands flat on the chest, draw hands outwards while pressing with the fingers. Cleanse the skin on the neck and décolleté to remove all impurities and dirt.
- Apply ageLOC Tru Face Essence Duet as described above.
- Optional step in case of leftover moisturiser from your body or facial cream: apply your leftover moisturiser after ageLOC Tru Face Essence Duet. Just make sure your neck and décolleté is dry again.
- In case your neck & décolleté is exposed to the sun we recommend to end your regimen with an SPF cream.

ageLOC® LumiSpa™

ALL YOU NEED TO KNOW

It's important to take care of our skin, but it isn't always easy. Different skin types have different needs and creating a full routine can be confusing and time-consuming. That's why we created a complete skincare device that can help tackle your most common concerns with fantastic results – and without wasting your morning. With unique accessories designed to help provide both an amazing cleansing experience and gentle, loving eyecare, your ageLOC LumiSpa device is a gateway to skincare you're sure to love.

YOUR LUMISPA CLEANSING EXPERIENCE

ageLOC LumiSpa is great at that, but it offers so much more. In just two minutes, used twice per day with one of our Activating Cleansers as part of your skin care regimen, you'll begin to experience 7 amazing benefits that go beyond a simple cleanse:

- 1 - 37% smoother skin after a single use*
- 2 - 37% softer skin after a single use*
- 3 - 2X visibly cleaner skin after 12 weeks**
- 4 - 62% more radiance after 12 weeks**
- 5 - Reduced appearance of pores.
- 6 - Clearer, brighter skin.
- 7 - Visibly refreshed complexion.

The above claims are obtained from third-party professional assessments including observation by a clinical grader: *Results based on a 4-week in-vivo consumer use study performed on 80 subjects with sensitive skin who used the ageLOC LumiSpa Activating Cleanser for Normal to Combination Skin with the Firm Silicone Head.

**Results based on a 12-week in-vivo consumer use study featuring 150 female subjects with different skin types. Results extracted above correspond to subjects with normal to combination skin. Those subjects were instructed to use the ageLOC LumiSpa with the Normal Silicone Head and ageLOC LumiSpa Activating Cleanser for Normal to Combination Skin in place of their normal facial cleanser, morning and night.

THE LUMISPA DEVICE

Nu Skin was named as the world's #1 at-home beauty device system brand in 2017 and 2018 by Euromonitor* and this rechargeable, waterproof skincare device is the engine that drives both your cleansing and eyecare experience. It features a patented Two-Sense Motion Technology that helps stimulate the skin when cleansing, while its precise motion and frequency are optimised to work with both our Activating Cleansers and IdealEyes (we'll talk about both in just a moment).

*Source Euromonitor International Ltd; Retail Value RSP terms; all channels; 2017 and 2018. Includes at-home Skin Care Devices exclusively paired with topical consumable of same brand. Based on Euromonitor custom research methodology, Jan/Feb 2019. Includes electric facial cleansers as defined in Passport database; does not include hair care/removal, body shavers, or oral care appliances.

THE SILICONE HEADS

Our Silicone Heads – used for your cleansing routine – are uniquely designed to maintain optimal contact with your skin and get the most from the Activating Cleansers. Our Normal head comes as standard and is suitable for all skin types, but to optimise your experience, we recommend using the Firm head together with the Activating Cleanser for Oily Skin, and the Gentle head together with the Activating Cleanser for Sensitive or Blemish Prone Skin. Each of our Silicone Heads are more hygienic than bristle heads commonly found on the market and are easy to clean and replace.

- * Clinically proven to leave your nails looking and feeling healthy, smooth, strong and shiny.
- * Three easy steps to exfoliate and hydrate your nails without ever leaving the house – all in just 10 minutes.
- * Developed by a board-certified dermatologist specialising in nailcare. Dr. Dana Stern knows her stuff.
- * Hands. Feet. It works great on both.
- * Botanical ingredients to help hydrate and condition your nails and cuticles in step 03.

USAGE

Step 01: Glycolic Acid Prep for Nails

This is the first step in your adventure with Dr. Dana – featuring Glycolic Acid for that essential nail exfoliation. Ensure that your nails are dry, clean, and unpolished. Twist the pen – this might take a few tries the first time but keep at it – and coat the droplet evenly across the nails of one hand. Repeat for your other hand. Let it sink in completely – the product itself, and how awesome it is – then move on to Step 02. Use once per week.

Step 02: Perfect grit priming wand

This multi-tasking wand has three levels of roughness to prime your nails, removing any damaged surface nail cells and setting you up for Step 3. Brush your nails with Surface 01 two to five times until you notice a fine powder. Repeat with Surface 02, and then finish up with Surface 03, pressing harder and sweeping back and forth to get those nails glowing. Use surface 01 and 02 just once per week. Use surface 03 no more than once per day to boost shine.

Step 03: Deep Hydrating Formula for Nails & Cuticles

You're almost there! This innovative gel-oil is made with natural ingredients to leave your nails looking healthy, shiny and strong. Just like in step 1, twist the silver pen and brush the product across the entire nail – share the love with the surrounding skin and the cuticles as well (you can call them cute-icles after this). Repeat this step to your heart's content throughout the week (no more than once per day), then take to the streets and show 'em off. Doctor's orders.

Balancing shampoo

BENEFITS

Don't deny your hair what it deserves. Some shampoos strip away natural moisture, leaving hair dry, exposed, and dull. For uncompromised clean, Nu Skin Balancing Shampoo provides just the right balance of cleansing and moisturizing, while key nutrients found in cotton bloom extract restore strength to the cortex. Now you can gently remove impurities with balanced hydration and return the look of youthful strength and health to your hair in just seven days.

USAGE

Massage into wet hair and scalp with fingertips. Rinse thoroughly. Repeat if necessary. For best results, follow with the Nu Skin® conditioner of your choice

Clarifying shampoo

Rediscover your hair's natural strengths. On day one, Nu Skin® Clarifying Shampoo provides a deep clean without stripping the hair of natural moisturisers for renewed manageability. By day seven, hair actually feels stronger. Formulated with shea butter seedcake extract, this powerful cleanser attaches to build-up - including nicotine, chlorine and environmental pollutants - and washes away the signs of ageing. Your hair will feel clean, shiny and manageable after just one wash.

USAGE

Use weekly in place of Balancing or Moisturizing Shampoo for deep cleansing. Massage into wet hair and scalp with fingertips. Rinse thoroughly. For best results, follow with ReNu Hair Mask.

Epoch Sole Solution

BENEFITS

- Works on the underlying cause of rough, dry, and cracked feet, returning them to a soft, smooth, healthy looking condition.
- Delivers noticeable relief in the first few weeks of use.
- Softens and exfoliates dead cell buildup and calluses for soft, smooth skin.
- No added fragrance; naturally fragranced with allspice berry.
- Dermatologically tested.

KEY INGREDIENTS

Crushed allspice berry (*Pimenta dioica*)—used by indigenous people in the rainforests of Central America to relieve persistent dry, cracked, red skin on heels, toes and sides of feet

Urea—exfoliates calluses and dead cell buildup while providing deep moisturisation

Papain—a proteolytic enzyme from papaya breaks down and loosens thick, rough patches of dry, dead skin.

USAGE

Apply liberally to affected areas on cleansed feet morning and night or as needed. Focus on rough or dry areas. Do not rinse off. Allow product to remain on skin as long as possible. Best results are seen after six to eight weeks of usage as directed.

Nu Colour® Curling Mascara & Nutriol Eyelash

MAKE YOUR BEAUTIFUL EYES THE CENTRE OF INTEREST

Nu Colour® Curling Mascara

BENEFITS

- A curved brush which gives a long lasting curling power and allowing you to have the wide open eye effect
- Black coloured mascara in a light liquid formula
- Curve brush adaptable with streamlined eye shape and line

USAGE

Applying your mascara is the last step of doing your facial make-up. Open the mascara and rub the end of the applicator to the side to remove excess. Hold your eyes open as wide as possible and gently go over your eye lashes beginning at the root, gently pulling the wand up to the end of your lashes. If you see your lashes are not entirely separated, then gently do this movement again, back and forth to have the best effect.

INGREDIENTS

Aqua, Synthetic Beeswax, Acrylates Copolymer, Butylene Glycol, Styrene/Acrylates Copolymer, Acacia Senegal Gum, Copernicia Cerifera Wax, Hydrogenated Polyisobutene, Stearic Acid, Tribehenin, Glyceryl Dibehenate, 1,2-Hexanediol, Behenyl Alcohol, Cellulose, Polysorbate 20, Polyvinyl Alcohol, Tromethamine, Glyceryl Behenate, Calcite, Hydrolyzed Wheat Protein, Glyceryl Stearate, Sorbitan Sesquioleate, PEG-100 Stearate, Laureth-21, Hydroxyethylcellulose, Montmorillonite, Quartz, Disodium EDTA, Sodium Acetate, Potassium Sorbate, Phenoxyethanol, Sodium Benzoate, [CI 77499].

Nu Colour® Nutriol® Eyelash Treatment

HOW TO USE

- Apply Nu Colour Nutriol Eyelash Treatment to clean, dry lashes, starting from the root to the tip.
Wear alone on lashes during the day or at night to condition and strengthen them.
- Apply as a primer and immediately follow with Nu Colour Curling Mascara to extend its wear.
- Can work as a brow styling and conditioning gel. Brush to achieve your desired brow style and apply Nu Colour Nutriol Eyelash Treatment to “set” the look and condition your brows.

To avoid moisture loss in the tube when applying product, swirl the brush in the tube instead of pumping the brush up and down.

Peels, Masks & Scrubs

AN OASIS FOR DRY SKIN

Defy the ageing process with products that release dead cell buildup, unblock pores, soothe and condition, firm up sags and wrinkles and infuse your skin with moisture.

- Polishing Peel Skin Refinisher for All Skin Types
- Exfoliant Scrub Extra Gentle for All Skin Types
- Creamy Hydrating Masque for All Skin Types.

BENEFITS AND USAGE

Polishing Peel Skin Refinisher for All Skin Type

- Removes dead epidermal cells like a pro in just two minutes for visibly smoother, brighter skin.
- Made with bentonite clay to help smooth and soften skin.
- Removes dead cells, helping to buff out the tell-tale signs of pollution, reducing the visible effects of stress and pollution on your skin.
- Exfoliates and polishes for beautifully smooth, soft skin and a youthful, and healthy, -looking glow.
- A non-abrasive formula keeps your skin feeling comfortable during and after use.

USAGE:

Use 3 times the first week, then 1–2 times per week after that.

Apply a visible, even layer to your clean, dry face and neck, avoiding the eye area. Start rubbing immediately after application or let stand for maximum 30 to 60 seconds on the skin before rubbing. If the product stays too long in contact with the skin, the product will become dry and will be difficult to remove. As soon as Polishing Peel starts to firm/dry, use your fingertips to massage in a circular motion to work product into large particles that will buff away dead skin cells. If product becomes too dry, moisten your fingertips slightly and continue massaging to remove product. Rinse with warm water and pat dry. Follow with the Nu Skin® toner and moisturiser of your choice.

Exfoliant Scrub Extra Gentle for All Skin Types

- Gently, thoroughly, and evenly exfoliates skin with the use of natural marine diatoms – helpful microalgae – for a brighter complexion.
- Removes pore-blocking nasties without stripping away moisture to ensure skin feels comfortable.
- Helps protect your skin against the effects of pollution by sloughing off dead skin cells, helping to clear it of pollutants.
- Scrubs away the visible effects of stress and pollution on your skin, leaving it feeling renewed soft, smooth and refreshed.
- Aloe Vera helps leave skin feeling smooth and nourished for that gentle post-scrub touch.

USAGE:

After cleansing, gently massage onto moistened face and neck for 30 seconds. Rinse and follow with toner.

Creamy Hydrating Masque for All Skin Types

- Helps lock moisture into the skin to reduce the chance of dryness.
- Promotes a dewy, radiant and plump appearance.
- Supports the resiliency of skin and works to improve its tone and texture by helping to maintain its natural moisture levels

USAGE:

After cleansing, apply liberally to face and neck and let sit for 10 minutes. Rinse with warm water.

Sun Protection

YOUR HEALTH AND WELLBEING

Now, expect more from your sunscreen product. Excessive sun exposure can lead to unwanted consequences, including premature appearance of the visible signs of ageing on the skin, like lines and wrinkles. It protects your skin with a water-resistant, non-greasy formula, which offers you a high UVA/UVB protection to help protect from the visible effects of photo-ageing.

Sunright® 50 - Sunright® 30

KEY FEATURES

- Astaxanthin (haematococcus pluvialis extract) — helps protect skin from environmental aggressors. This powerful antioxidant helps protect the skin from the visible effects associated with UV exposure.
- Physalis angulata extract — helps soothe skin during UV exposure.
- Aloe vera, bisabolol, and panthenol — moisturise and soothe the skin.

USAGE

Apply a generous amount to cover all exposed areas 15 minutes prior to sun exposure. Reducing the quantity will lower the level of protection significantly. Re-apply regularly to maintain protection, especially after perspiring, swimming or toweling. Do not stay too long in the sun, even while using a sunscreen product. Keep babies and young children out of direct sunlight. Over-exposure to the sun is a serious health threat.

Sunright® Insta Glow Tinted Self-Tanning

WANT A BEAUTIFUL GOLDEN GLOW ALL YEAR ROUND?

No matter the season, you can give your skin a sun-kissed finish with Sunright Insta Glow. This self-tanning gel will help you achieve a luxurious bronze finish while providing moisturising benefits, without excessive sun exposure, which may lead to early visible signs of skin ageing.

Sunright Insta Glow is formulated for face and body and builds gradually into a natural looking tan. You will start seeing results as of **15 minutes*** after application. Sunright Insta Glow is low-odour and it glides effortlessly onto your skin for a smooth and even application. The gel dries quickly, leaving you ready to show off your radiant skin colour.

*Clinical evaluation concerning the efficacy of Sunright Insta Glow on 25 female subjects who applied the product on the face and arms and completed a self-assessment questionnaire at baselines and 15 minutes post-application

BENEFITS

- Delivers a luxurious instant bronze finish effect starting to be observed as of 15 minutes* after application.
- Provides a substantive bronzing effect that cannot be easily washed off a few hours after application.
- Specifically designed to be low-odour.
- Light texture, easy to apply.
- Absorbs quickly for a streak-free finish and does not stain clothes.
- Non-drip iridescent moisturising gel.
- Firstly, you can use this self-tan gel to achieve a make-up contouring look. Secondly, you can enhance your golden nude skin look with a natural glow.
- Dihydroxyacetone (DHA) – skin self-tanning agent that provides a substantive bronzing effect in a few hours after application of Sunright Insta Glow.
- Caramel, CI 77891, CI 77491 – colouring ingredients that provide a beautiful sun-kissed glow as of 15 minutes.

*Clinical evaluation concerning the efficacy of Sunright Insta Glow on 25 female subjects who applied the product on the face and arms and completed a self-assessment questionnaire at baselines and 15 minutes post-application.

USAGE

Use Sunright Insta Glow on exfoliated, clean, dry, non-irritated and intact skin*.

Apply a thin layer to face and body in a circular motion. Wash hands thoroughly after application. Remove the gel from the knees, ankles and elbows. Wait a few minutes before dressing. Avoid eyebrows, the delicate eye area, hairline, and lips. Do not use the product on a daily basis. Read the directions of use carefully and keep out of reach of children

Before using products, please perform a patch test on a small area of skin. If redness or irritation occurs, discontinue use immediately.

Sunright Insta Glow is not a sunscreen. You need to protect your skin adequately from the sun.

Tru Face Line Corrector

BENEFITS

- Targets the visible signs of mechanical skin ageing.
- Reduces the appearance of fine lines and wrinkles around the mouth and forehead.
- Smooths and reduces the appearance of crow's feet around the eyes

INGREDIENTS

Aqua, Cyclopentasiloxane, Phenyl Trimethicone, Glycerin, Dimethicone Crosspolymer, Butylene Glycol, Stearyl Dimethicone, Glyceryl Stearate, PEG-100 Stearate, Cyclotetrasiloxane, Cyclohexasiloxane, Methyl Glucose Sesquistearate, Caprylyl Glycol, Dipalmitoyl Hydroxyproline, Prunus Amygdalus Dulcis Seed Extract, Isohexadecane, Centella Asiatica Extract, Portulaca Oleracea Extract, Ethylhexylglycerin, Palmitoyl Oligopeptide, Palmitoyl Tetrapeptide-7, PEG/PPG-18/18 Dimethicone, Carbomer, Sodium Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Sodium Polyacrylate, Polysorbate 80, Polysorbate 20, Sorbitan Oleate, Octadecene, Disodium EDTA, Citric Acid, Aminomethyl Propanol, Phenoxyethanol, Chlorphenesin

USAGE

Use after a Nu Skin cleanser and toner of your choice. Apply both morning and night to lines around the eyes, mouth and forehead. Follow with a Nu Skin moisturiser of your choice.

For optimal results, use Tru Face Line Corrector with ageLOC Galvanic Spa:

Attach the Focus Area Conductor to the device.

Step 1: Apply Tru Face Line Corrector to the lines and wrinkles you want to target. Apply to only one of these areas at a time. Make sure to leave a thin layer of product on the surface of your skin.

Step 2: Push the selection button until the number 3 is lit on the display. This application will take 5 minutes.

Pro Tip: When targeting multiple areas, you can use the five minutes for more than one area. Small application areas typically do not require more than one or two minutes each.

Step 3: Thoroughly wet hands with NaPCA Moisture Mist or water. Hold the device with a moistened hand while touching the chrome plate on the back and begin to slowly glide the conductor head over your skin.

Be careful to avoid sensitive areas like your eyes, eyelids, and lips.

The device will beep once, twice, or three times to indicate that it has automatically adjusted to your skin.

After this, your galvanic application has begun, and the device will beep every 10 seconds to indicate the unit is on and working, and every 5 seconds when your application is almost complete.

Step 4: When your galvanic application is over, the device will emit a long beep followed by two short beeps and automatically turn off. Repeat steps 1 through 3 for each targeted area. When finished with all applications, rub any remaining product into your skin and wipe any leftover product from the device with a damp towel.
