

ageLOC® LumiSpa™

ALL YOU NEED TO KNOW

It's important to take care of our skin, but it isn't always easy. Different skin types have different needs and creating a full routine can be confusing and time-consuming. That's why we created a complete skincare device that can help tackle your most common concerns with fantastic results – and without wasting your morning. With unique accessories designed to help provide both an amazing cleansing experience and gentle, loving eyecare, your ageLOC LumiSpa device is a gateway to skincare you're sure to love.

YOUR LUMISPA CLEANSING EXPERIENCE

ageLOC LumiSpa is great at that, but it offers so much more. In just two minutes, used twice per day with one of our Activating Cleansers as part of your skin care regimen, you'll begin to experience 7 amazing benefits that go beyond a simple cleanse:

- 1 - 37% smoother skin after a single use*
- 2 - 37% softer skin after a single use*
- 3 - 2X visibly cleaner skin after 12 weeks**
- 4 - 62% more radiance after 12 weeks**
- 5 - Reduced appearance of pores.
- 6 - Clearer, brighter skin.
- 7 - Visibly refreshed complexion.

The above claims are obtained from third-party professional assessments including observation by a clinical grader: *Results based on a 4-week in-vivo consumer use study performed on 80 subjects with sensitive skin who used the ageLOC LumiSpa Activating Cleanser for Normal to Combination Skin with the Firm Silicone Head.

**Results based on a 12-week in-vivo consumer use study featuring 150 female subjects with different skin types. Results extracted above correspond to subjects with normal to combination skin. Those subjects were instructed to use the ageLOC LumiSpa with the Normal Silicone Head and ageLOC LumiSpa Activating Cleanser for Normal to Combination Skin in place of their normal facial cleanser, morning and night.

THE LUMISPA DEVICE

Nu Skin was named as the world's #1 at-home beauty device system brand in 2017 and 2018 by Euromonitor* and this rechargeable, waterproof skincare device is the engine that drives both your cleansing and eyecare experience. It features a patented Two-Sense Motion Technology that helps stimulate the skin when cleansing, while its precise motion and frequency are optimised to work with both our Activating Cleansers and IdealEyes (we'll talk about both in just a moment)

*Source Euromonitor International Ltd; Retail Value RSP terms; all channels; 2017 and 2018. Includes at-home Skin Care Devices exclusively paired with topical consumable of same brand. Based on Euromonitor custom research methodology, Jan/Feb 2019. Includes electric facial cleansers as defined in Passport database; does not include hair care/removal, body shavers, or oral care appliances.

THE SILICONE HEADS

Our Silicone Heads – used for your cleansing routine – are uniquely designed to maintain optimal contact with your skin and get the most from the Activating Cleansers. Our Normal head comes as standard and is suitable for all skin types, but to optimise your experience, we recommend using the Firm head together with the Activating Cleanser for Oily Skin, and the Gentle head together with the Activating Cleanser for Sensitive or Blemish Prone Skin. Each of our Silicone Heads are more hygienic than bristle heads commonly found on the market and are easy to clean and replace.
