- For optimal results, before your day or night cream, apply morning and evening onto clean dry skin. Dispense 1-2 pumps into hands by pressing equally with your 2 fingers on the pump, mix gently and smooth over neck and décolleté.
- Contour the neck: hands at the base of the neck, fingers behind the neck, apply light pressure with the fingertips.
- Tone the décolleté: hands flat on the chest, draw hands outwards while pressing with the fingers. Cleanse the skin on the neck and décolleté to remove all impurities and dirt.
- Apply ageLOC Tru Face Essence Duet as described above.
- Optional step in case of leftover moisturiser from your body or facial cream: apply your leftover moisturiser after ageLOC Tru Face Essence Duet. Just make sure your neck and décolleté is dry again.
