

Sunright® Insta Glow Tinted Self-Tanning

WANT A BEAUTIFUL GOLDEN GLOW ALL YEAR ROUND?

No matter the season, you can give your skin a sun-kissed finish with Sunright Insta Glow. This self-tanning gel will help you achieve a luxurious bronze finish while providing moisturising benefits, without excessive sun exposure, which may lead to early visible signs of skin ageing.

Sunright Insta Glow is formulated for face and body and builds gradually into a natural looking tan. You will start seeing results as of **15 minutes*** after application. Sunright Insta Glow is low-odour and it glides effortlessly onto your skin for a smooth and even application. The gel dries quickly, leaving you ready to show off your radiant skin colour.

*Clinical evaluation concerning the efficacy of Sunright Insta Glow on 25 female subjects who applied the product on the face and arms and completed a self-assessment questionnaire at baselines and 15 minutes post-application

BENEFITS

- Delivers a luxurious instant bronze finish effect starting to be observed as of 15 minutes* after application.
- Provides a substantive bronzing effect that cannot be easily washed off a few hours after application.
- Specifically designed to be low-odour.
- Light texture, easy to apply.
- Absorbs quickly for a streak-free finish and does not stain clothes.
- Non-drip iridescent moisturising gel.
- Firstly, you can use this self-tan gel to achieve a make-up contouring look. Secondly, you can enhance your golden nude skin look with a natural glow.
- Dihydroxyacetone (DHA) – skin self-tanning agent that provides a substantive bronzing effect in a few hours after application of Sunright Insta Glow.
- Caramel, CI 77891, CI 77491 – colouring ingredients that provide a beautiful sun-kissed glow as of 15 minutes.

*Clinical evaluation concerning the efficacy of Sunright Insta Glow on 25 female subjects who applied the product on the face and arms and completed a self-assessment questionnaire at baselines and 15 minutes post-application.

USAGE

Use Sunright Insta Glow on exfoliated, clean, dry, non-irritated and intact skin*.

Apply a thin layer to face and body in a circular motion. Wash hands thoroughly after application. Remove the gel from the knees, ankles and elbows. Wait a few minutes before dressing. Avoid eyebrows, the delicate eye area, hairline, and lips. Do not use the product on a daily basis. Read the directions of use carefully and keep out of reach of children

Before using products, please perform a patch test on a small area of skin. If redness or irritation occurs, discontinue use immediately.

Sunright Insta Glow is not a sunscreen. You need to protect your skin adequately from the sun.
