

NUTRICENTIALS®

DAY DREAM PROTECTIVE LOTION

Lightweight Day Moisturizer

Size: 50 ml

We all want radiant looking skin no matter what. But sometimes wanting it isn't enough. Every day, our skin faces the negative impact of pollution, UV rays, or even lack of sleep, which can leave it looking dull and tired. That's why we created Nutricentials. Through innovative science, we took the power and resilience of bioadaptive plant extracts that thrive in the harshest of conditions and brought them into your urban world, unleashing the untamed forces of nature in every formula of this modern skincare range.

Nutricentials Bioadaptive Skin Care. Make every day a great skin day.

MEET DAY DREAM PROTECTIVE LOTION

We all dream of beautiful skin, and this luxurious facial moisturising day cream is here to help you get it. The Day Dream Protective Lotion formula contains SPF 30 for an added boost of UVB protection, and that's only the beginning. Our bioadaptive botanical complex helps to improve your skin's ability to adapt to the adverse effects of stress, pollution, and oxidative stress – but we know it will face more than that. Carnosine, our blue light and infrared antioxidant ingredient, adds further protection, helping to negate the effects of excessive exposure to blue light and infrared on your skin. At the same time, a ginger root extract leaves it looking vibrant. Start your day with Nutricentials Protective Lotion and spend it with skin that looks dewy and radiant – no matter what comes your way.

WHY YOU'LL LOVE IT

- o Made with bioadaptive botanicals to increase your skin's ability to adapt to its unique environment.
- o Features SPF 30 (UVB protection) in a comfortable lotion.
- o Protects against the negative effects of excessive UV, blue light, and infrared exposure, including skin discoloration, dullness, and premature visible signs of skin ageing.
- o Helps protect against, and increases skin's resiliency to, the adverse effects of environmental stressors such as stress, pollution, and oxidative stress.
- o Provides lightweight hydration without leaving a greasy residue.
- o Gives a glowing, luminous complexion and evens skin tone for radiant-looking skin.

- o Doesn't clog pores—non-comedogenic.
- o Features a tube that is proudly made with 34% post-consumer recycled plastic.

WHAT POWERS IT

- o **Bioadaptive botanical complex** – a blend of botanical extracts from plants that thrive in extreme climates and can help your skin bounce back from life's daily stressors such as stress, pollution, and free radicals.
 - **Siberian ginseng root extract** (Eleutherococcus Senticosus Root Extract)
 - **Rhodiola rosea extract** (Rhodiola Rosea Extract)
 - **Maral root extract** (Rhaponticum Carthamoides Root Extract),
 - **Chaga mushroom extract** (Inonotus Obliquus Extract)
 - **Resurrection plant extract** (Selaginella Lepidophylla Extract)
- o **Blue light and infrared antioxidant ingredient (Carnosine)** – provides antioxidant protection to help limit the adverse effects of excessive exposure to blue light and infrared, like skin discoloration and dull-looking skin.
- o **Ginger root extract** (Zingiber Officinale Root Extract) – an antioxidant that increases skin's natural resilience to stress as it soothes, promotes skin luminosity and helps even skin tone.

HOW TO USE IT

Apply a generous amount to the face and neck in an upward, outward motion. Use every morning.

A DAY IN THE NUTRICENTIALS LIFE

To kick off your optimal morning skincare regimen, begin with Day Away Micellar Beauty Water as the first step of a double cleansing routine. Follow with

one of our two cleansers, HydraClean or To Be Clear. Next, use one of our toners to hydrate and prepare your skin for any additional skincare (In Balance or Here You Glow). One step you don't want to miss is the application of our serum, Celltrex Always Right.

Finally, apply the moisturiser that best fits your needs: Do you like it creamy or lightweight? With SPF and blue light protection, or without? Whatever you prefer, Nutricentials has something that works for you.

Already addicted to your Nu Skin products, like the ageLOC LumiSpa System? Don't be afraid to mix and match and create your optimal skincare routine with any combination of our many choices. After using the ageLOC LumiSpa System, you can continue with a Nutricentials toner.

LEARN MORE ABOUT IT

What are bioadaptive botanicals?

Bioadaptive botanicals are plants that thrive in extreme climates thanks to their adaptive properties. Our extracts use these special properties to help your skin to increase its ability to adapt to its changing and unique environment, helping it bounce back from — and gain resiliency to — life's daily stressors.

What benefits will Nutricentials Day Dream Protective Lotion bring to my skin?

Nutricentials Day Dream Protective Lotion contains sunscreen filters (UVB protection) to protect the skin from the negative impact of excessive sun exposure. Other ingredients bring a range of benefits. Whether it's the vibrant skin appearance that comes from our ginger root extract, the antioxidant protection that comes from the carnosine in our formula, or the improvement in your skin's ability to adapt to the stressors of its environment that our bioadaptive botanical complex can bring, the ingredients in Day Dream Protection Lotion work together to offer a lot for consumers to love!

Can Nutricentials Day Dream Protective Lotion be used together with another moisturiser?

Day Dream Protective Lotion is a moisturising day cream with SPF 30 added into its formula. If additional hydration is needed, you can first use Thirst Fix before adding Day Dream Protective Lotion.

What does a non-comedogenic formula mean for my skin?

Non-comedogenic means that the formula won't clog the pores – they're suitable for you, no matter your skin type. All of our leave-on products have been tested for comedogenicity to ensure that they do not clog pores.

How were the ingredients chosen?

Nutricentials is inspired by nature. The magic of plant extracts, like our bioadaptive botanicals, is a crucial part of this product line. Our science is there to support these ingredients. Whether it comes from the earth or from the lab, every ingredient is there for a reason. We design every Nu Skin product to meet not just our own high standards, but also the demands of those who use them.

How does Nutricentials support Nu Skin's commitment to becoming more sustainable?

Nutricentials bottles are made from 100% post-consumer recycled plastic, while the tubes are made with 34–35% post-consumer recycled plastic. Please check how to best recycle the bottles and jars in your area where possible. By purchasing Nutricentials, you're joining us in taking an active, engaged stride to ensure the future is bright for both the planet and each of us. Visit www.nuskin.com/sustainability for more information and details on how to recycle.
