

NUTRICENTIALS® IN BALANCE

pH Balance Toner

Size: 150 ml

We all want radiant looking skin no matter what. But sometimes wanting it isn't enough. Every day, our skin faces the negative impact of pollution, UV rays, or even lack of sleep, which can leave it looking dull and tired. That's why we created Nutricentials. Through innovative science, we took the power and resilience of bioadaptive plant extracts that thrive in the harshest of conditions and brought them into your urban world, unleashing the untamed forces of nature in every formula of this modern skincare range.

Nutricentials Bioadaptive Skin Care. Make every day a great skin day.

MEET IN BALANCE

Your skincare routine doesn't stop at cleansing. It's essential to follow up with a refreshing burst of hydration, and In Balance is perfect for the job. This light facial toner helps your skin stay balanced by helping it adjust to its optimal pH level. Formulated with glycerin and a moisture strength blend that features lactobacillus ferment, Aloe, sodium PCA, and sodium hyaluronate, it helps maintain your skin's natural moisture barrier, leaving it feeling refreshed and looking radiant.

WHY YOU'LL LOVE IT

- Made with bioadaptive botanicals.
- Helps adjust skin to its optimal pH level.
- Helps maintain skin's natural moisture barrier.
- Provides an immediate boost of hydration after cleansing.

- Prepares skin for additional products like serums and moisturisers.
- Promotes a refined, refreshed, smooth, radiant appearance.
- Doesn't clog pores (non-comedogenic).
- Features a bottle that is proudly made from 100% post-consumer recycled plastic.

WHAT POWERS IT

- Moisture strength blend (Lactobacillus ferment, Aloe, sodium PCA, sodium hyaluronate) and glycerin – help maintain skin's natural moisture barrier.

HOW TO USE IT

After cleansing, apply to face and neck using a cotton pad. Use daily, morning and night.

A DAY IN THE NUTRICENTIALS LIFE

To kick off your optimal morning skincare regimen, begin with Day Away Micellar Beauty Water as the first step of a double cleansing routine. Follow with one of our two cleansers, HydraClean or To Be Clear. Next, use one of our toners to hydrate and prepare your skin for any additional skincare (In Balance or Here You Glow). One step you don't want to miss is the application of our serum, Celltrex Always Right.

Finally, apply the moisturiser that best fits your needs: Do you like it creamy or lightweight? With SPF and blue light protection, or without? Whatever you prefer, Nutricentials has something that works for you.

Already addicted to your Nu Skin products, like the ageLOC LumiSpa System? Don't be afraid to mix and match and create your optimal skincare routine with any combination of our many choices. After using the ageLOC LumiSpa System, you can continue with a Nutricentials toner.

LEARN MORE ABOUT IT

What are bioadaptive botanicals?

Bioadaptive botanicals are plants that thrive in extreme climates thanks to their adaptive properties.

Why should I use a pH balancing toner?

pH balancing toners bring several key benefits to your skin. Not only do they bring a refreshing burst of hydration after cleansing, but they also help to balance your skin's pH levels, which helps to prepare your skin for the next steps of your daily routine, such as serums and moisturisers. It's an important step we all should consider!

What does a non-comedogenic formula mean for my skin?

Non-comedogenic means that the formula won't clog the pores. Even those with oilier skin won't struggle

here. All of our leave-on products have been tested for comedogenicity to ensure that they do not clog pores.

How were the ingredients chosen?

Nutricentials is inspired by nature. The magic of plant extracts, like our bioadaptive botanicals, is a crucial part of this product range. Our science is there to support these ingredients. Whether it comes from the earth or from the lab, every ingredient is there for a reason. We design every Nu Skin product to meet not just our own high standards, but also the demands of those who use them.

How does Nutricentials support Nu Skin's commitment to becoming more sustainable?

Nutricentials bottles are made from 100% post-consumer recycled plastic, while the tubes are made with 34–35% post-consumer recycled plastic. Please check how to best recycle the bottles and jars in your area where possible. By purchasing Nutricentials, you're joining us in taking an active, engaged stride to ensure the future is bright for both the planet and each of us. Visit www.nuskin.com/sustainability for more information and details on how to recycle.
