The moisturisation level of skin was measured using a corneometer in three areas; one area where Moisturize Me had been applied, alongside two areas for positive (glycerine) and negative (untreated) controls.*

## WHAT POWERS IT

- o **Bioadaptive Botanical Complex** — a blend of botanical extracts from plants that thrive in extreme climates and can help your skin bounce back from life's daily stressors such as stress, pollution, and oxidative stress:
  - **Siberian ginseng root extract** (Eleutherococcus Senticosus Root Extract)
  - **Rhodiola rosea extract** (Rhodiola Rosea Extract),
  - **Maral root extract** (Rhaponticum Carthamoides Root Extract),

## CLINICAL STUDIES THAT PROVE IT

Results from a third-party study\* showed that after a single application, subjects experienced:

+210% immediate hydration\*\*.

+118% hydration after 12 hours\*\*.

And continuous hydration for up to 24 hours.

\*\*These percentages were obtained by comparing the results of the untreated area and area featuring Nutricentials Moisturize Me.

## LEARN MORE ABOUT IT

### What are bioadaptive botanicals?

Bioadaptive botanicals are plants that thrive in extreme climates thanks to their adaptive properties. These special properties help your skin to increase its ability to adapt to its changing and unique environment, helping it bounce back from — and gain resiliency to — life's daily stressors.

### Is Moisturize Me suitable for all skin types?

Yes, Moisturize Me is suitable for all skin types. It's a perfect option for those who love a creamy, ultra-rich texture.

### Can I use Moisturize Me morning and night?

Moisturize Me fits perfectly into your morning and nighttime skincare routine. This intense hydrating cream provides an immediate moisture boost and helps your skin increase its ability to adapt to daily

stressors. When used with your morning routine, you can follow-up with one of our facial moisturisers with added SPF, such as Day Dream Protective Cream SPF 30, for a little extra UVB protection.

**What does a non-comedogenic formula mean for my skin?**

Non-comedogenic means that the formula won't clog the pores. Even those with oilier skin won't struggle here. There's no need to fear trying out richer textures – they're suitable for you, no matter your skin type. All of our leave-on products have been tested for comedogenicity to ensure that they do not clog pores.

**How were the ingredients chosen?**

Nutricentials is inspired by nature. The magic of plant extracts, like our bioadaptive botanicals, is a crucial part of this product range. Our science is there to support these ingredients.

Whether it comes from the earth or from the lab, every ingredient is there for a reason. We design every Nu Skin product to meet not just our own high standards, but also the demands of those who use them.
